

KLOVE is the only radio station that is on in my car, my children's radios and even my husband. In today's world you cannot take this positive message away from us. The music gets us all through the mornings and afternoons it settles all down. I do not want my girls listening to the "crap" that other stations play. I support KLOVE and want to listen to Christian music. I have to restrict what they watch on tv, I don't have to worry about it in the car. It's nice to be able to get in my 19 year's car and the radio is blaring KLOVE.
The public, the world needs KLOVE!!!!
